Observation of pain behaviors during episodes of Sickle cell disease pain, 128
Postepisiotomy pain
Epidural morphine pretreatment for postepisiotomy pain, 319
Postoperative analgesia
Comparison of morphine and ketorolac for intravenous patient-controlled analgesia in postoperative cancer patients, 314
Postoperative pain
Respiratory-related critical events with intravenous patient-controlled analgesia, 52
Predicting
Can treatment outcome of chronic low back pain be predicted? Psychological disease consequences clarifying the issue, 107
Prediction of pain center treatment outcome for geriatric chronic pain patients, 10
Preemptive analgesia
Epidural morphine pretreatment for postepisiotomy pain, 319
Primary care
Primary care physicians and pain: Education during residency, 303
Prostatitis
Psychological problems in chronic prostatitis patients with pain, 218
Psychiatric examination
The problem-oriented psychiatric examination of the chronic pain patient and its application to the litigation consultation, 28

Psychological factors
Role of psychological factors in postoperative pain control and recovery with patient-controlled analgesia, 57
Psychological problems
Psychological problems in chronic prostatitis patients with pain, 218
Psychological test
Effect of spiritual healing on chronic idiopathic pain: a medical and psychological study, 296

Quantitative sudomotor reflex test (QSART)
Laboratory findings in reflex sympathetic dystrophy: A preliminary report, 235

Reactivity
Reactive effects of measurements of pain, 18
Reflex sympathetic dystrophy (RSD)
Alterations of the three-phase bone scan after sympathectomy, 146
Laboratory findings in reflex sympathetic dystrophy: A preliminary report, 235
Profile of Caucasian women with possible genetic predisposition to reflex sympathetic dystrophy: A pilot study, 210
Norepinephrine and epinephrine levels in affected *versus* unaffected limbs in sympathetically maintained pain, 324
Stability of temperature asymmetrics in reflex sympathetic dystrophy over time and changes in pain, 71
Relaxation training
Treatment of recurrent tension headache: A meta-analytic review, 174
Reliability
Function and the patient with chronic low back pain, 191
Observation of pain behaviors during episodes of Sickle cell disease pain, 128
Reactive effects of measurements of pain, 18
Residency
Primary care physicians and pain: Education during residency, 303
Resistance to treatment
Profile of Caucasian women with possible genetic predisposition to reflex sympathetic dystrophy: A pilot study, 210
Respiratory depression
Respiratory-related critical events with intravenous patient-controlled analgesia, 52

Sensory pain
Sensory and affective predictors of overall pain and emotion associated with affective pain, 3
Sexual abuse
Childhood abuse, depression, and chronic pain, 277
Sickle cell disease
Observation of pain behaviors during episodes of Sickle cell disease pain, 128
Side effects
Clinical evaluation of pain treatment with electrostimulation: A study on TENS in patients with different pain syndromes, 22
Skin temperature
Laboratory findings in reflex sympathetic dystrophy: A preliminary report, 235
Stellate ganglion block
Success rates in producing sympathetic blockade by paratracheal injection, 139
Survey
Acute pain management of the chronic pain patient on opiates: A survey of caregivers at University of Washington Medical Center, 133
Sympathectomy
Alterations of the three-phase bone scan after sympathectomy, 146
Sympathetically maintained pain
Norepinephrine and epinephrine levels in affected *versus* unaffected limbs in sympathetically maintained pain, 324
Stability of temperature asymmetrics in reflex sympathetic dystrophy over time and changes in pain, 71
Sympathetic nervous system
Laboratory findings in reflex sympathetic dystrophy: A preliminary report, 235
Success rates in producing sympathetic blockade by paratracheal injection, 139

Tension-type headache
Treatment of recurrent tension headache: A meta-analytic review, 174
Thermography
Stability of temperature asymmetrics in reflex sympathetic dystrophy over time and changes in pain, 71
Three-phase bone scan
Alterations of the three-phase bone scan after sympathectomy, 146
Transcutaneous nerve stimulation
Clinical evaluation of pain treatment with electrostimulation: A study on TENS in patients with different pain syndromes, 22
Treatment
Prediction of pain center treatment outcome for geriatric chronic pain patients, 10
Treatment outcomes
Patterns in low back pain hospitalizations: Implications for the treatment of low back pain in an era of health care reform, 64
Treatment risk factors
Factors associated with failure of trigger point injections, 227
Trigger point injections
Factors associated with failure of trigger point injections, 227

Validity
Function and the patient with chronic low back pain, 191
Vasomotor control
Laboratory findings in reflex sympathetic dystrophy: A preliminary report, 235
Visual analogue scale
Sensory and affective predictors of overall pain and emotion associated with affective pain, 3

Work status
Relationship of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) with three dynamic physical tests, 197
